Frigidaire

Total Home Comfort and What it Means to You

Total home comfort depends on many variables. Variables such as your homes square footage, number of floors, the suns exposure on your home, location, construction materials, and your own personal comfort choices.

Frigidaire has developed a full line of furnaces and accessories to allow you to maintain Total Home Comfort year round.

What does having an 92.1% Furnace mean?

Furnaces are measured using AFUE (Annual Fuel Utilization Efficiency). The higher the AFUE rating the more energy efficient your system is and the lower your energy costs will be.

As an example the Frigidaire 90% line of furnaces will deliver a minimum of 90% efficient heat. Compare this to an older furnace that may only deliver 50% efficiency. As you can see new technology is all about saving you money for years to come.

*Dollar amounts computed at \$.092 ccf, for 2,500 full-load heating hours and a system rated at 60,000 Btuh. Actual costs vary depending on climate conditions, fuel rates, and patterns of usage according to individual lifestyle.

HOW TO SELECT THE RIGHT FRIGIDAIRE FURNACE FOR YOUR HOME AND LIFESTYLE

Your Frigidaire 92+ furnace has been carefully designed and engineered to

give you outstanding energy efficiency and years of trouble-free operation.

No detail has

been left out. The 92+ line of furnaces feature the SmartLite® Control board. A revolutionary computer within your furnace that learns the heat-up characteristics of the igniter and then adjusts automatically. This ensures reliable ignition and extends the life of the igniter. Just another “value added” design feature built into all Frigidaire products.

Energy Definitions

SEER Seasonal Energy Efficiency Rating

Measures cooling performance on air conditioners, heat pumps and gas/electric package products.

AFUE Annual Fuel Utilization Efficiency

It measures the amount of heat actually delivered to your house compared to the amount of fuel that you must supply to the furnace. Thus, a furnace that has an 80% AFUE rating converts 80% of the fuel that you supply to heat - the other 20% is lost out of the chimney.

HSPF Heating Seasonal Performance Factor

is a measure of the average number of Btu's of heat delivered for every Watt-hour of electricity used by the heat pump over the heating season.

As ratings increase, so does unit efficiency.

Frigidaire

Comforting Homes For Generations™

Delivering peace of mind furnace after furnace.

Every furnace is triple checked at each manufacturing stage. This is an average of 234 quality checks as your unit was built. In addition, all electrical and mechanical components are 100% fired and tested on the manufacturing line. You are assured the highest quality furnace is being delivered to your home.

Extending the life of your furnace.

High quality does not just happen. It must be engineered from the beginning. Our SmartLite® Control board is capable of learning the igniter's heat-up characteristics and then adapts the ignition time to the furnaces needs. The result, SmartLite energizes the igniter appropriately and extends the life of the igniter.

Total comfort never felt so good or sounded so quiet.

A precision work of art is what some call the Frigidaire. Designed so in-shot burners, inducer location, air vents and cabinet insulation all work in tandem to produce not only cleaner air but quieter operation.

Aesthetically pleasing and designed for easy care.

Smooth and practical lines make your Frigidaire furnace eye appealing. We take the extra step to finish every unit with a silicone-protective polyurethane finish to keep your unit looking attractive for years to come.

Built to last.

Heavy gauge aluminized steel is used for long life. Heat exchanger offers a limited lifetime warranty.

Frigidaire Is Unsurpassed In Protection Today, Tomorrow and Always

Frigidaire units offer an incredible customer promise that protects your investment.

Every product offers one of the best warranties in the industry, a 10 year limited warranty on all parts.

PLUS our proprietary Comfort Quality Pledge which states if within the first 10 years a heat exchanger goes out we will replace the entire unit. Ask your Frigidaire dealer or visit us at www.frigidaire.net for warranty details.

Your protection starts from day one – there's nothing left to chance when you purchase a Frigidaire home comfort system. Unlike other manufacturers we don't charge you extra for peace of mind. We build it into every single unit and are proud to stand behind our promises to you. It's one of the many reasons Frigidaire has been comforting homes for generations. You grew up with us and now you can grow old with us.

Your Frigidaire expert can also tell you about extended labor protection plans that are available. They can help you decide what is best for you and your family.
