**B5SM
AIR HANDLER**

- 7½ & 10 ton capacity
- 1" filters standard
- Warranty - 1 year limited parts

- Durable, attractive cabinet features precoated paint which provides corrosion resistance and long life.
- Mesh hail guard will never rust and protects the coil from being damaged.
- Access panels designed to make servicing easier.

Since 1935, the Mammoth brand has been creating comfortable indoor climates for industrial and commercial customers throughout the world.

Mammoth custom commercial products include factory-packaged rooftop systems, prefabricated mechanical equipment rooms and direct replacement rooftop units – all of which improve indoor air quality while reducing operating costs.

Mammoth light commercial equipment is manufactured by NORDYNE and includes packaged gas/electric ranging from 3 through 15 tons, and packaged air conditioners and heat pumps from 3 through 10 tons. These units feature durable, attractive cabinets that resist corrosion, never-rust mesh hail guards and access panels for easy servicing. NORDYNE has been designing and manufacturing reliable heating and cooling products for more than 90 years. The company focuses on creating genuine value for its customers through a unique combination of innovation, product performance and responsive support. Their Mammoth line is no exception.
